SUMMARY

A React developer with expertise in UI designing, I have been involved in developing and implementing web applications that are user-friendly and visually appealing. I have experience creating responsive designs, developing reusable components, and ensuring cross-browser compatibility. My technical skills include React.js, Framer Motion, HTML5, CSS3, and JavaScript proficiency. I am passionate about creating intuitive user interfaces that enhance the user experience. If you're looking for a React developer who can design and develop web applications that are both functional and aesthetically pleasing, feel free to connect with me. Apart from coding I also have a deep understanding of the Urdu language and grammar along with reading, writing, and understanding it

EXPERIENCE

Junior React Developer | Kashtech Solutions | Main Chowk Rajouri kadal, Srinagar, Jammu and Kashmir 190002.

| December 2023 - Present

- As a Vue.js and React.js developer, contributed to the development of high-quality websites, focusing on creating efficient and visually appealing user interfaces (UI) and user experiences (UX).
- Leveraged frameworks and libraries such as Vuetify and Material-UI components to build responsive and feature-rich web applications, ensuring a consistent and modern design.
- Collaborated with API integration, effectively communicating with external data sources and Firebase for data storage, real-time updates, and authentication.
- Implemented smooth and engaging animations within the web applications, enhancing user interaction and optimizing routing for improved performance using Framer Motion, resulting in a more fluid and enjoyable user experience.

PROJECTS

Ingredient Insight-ReactJS | github.com/hidayat11111/ing-insight | August 2023 - Present

- Implemented login, sign-up, and Google sign-in functionalities using Firebase for secure user authentication.
- Utilized Framer Motion for fluid and visually appealing page transitions and routing within your React application.
- Enabled the users to upload images of food items and communicate with an API for food item detection, providing valuable insights into ingredients.
- Implemented state persistence to ensure that user preferences and data are retained across sessions, enhancing the overall user experience and convenience.

CV maker-ReactJS | March 2023 - April 2023

- The CV Maker app features a comprehensive and well-thought-out design, ensuring that it covers all essential elements and sections required for creating a professional resume or CV.
- The application boasts a responsive design, ensuring that it adapts seamlessly to various screen sizes and devices, providing an optimal user experience on both desktop and mobile platforms.
- The CV Maker app is designed with a user-friendly interface, making it easy for users to create, edit, and customize their resumes or CVs without a steep learning curve.
- The app offers dynamic capabilities, allowing users to easily modify and update their CVs as their career progresses or when they need to tailor their resumes for specific job opportunities. This dynamic approach ensures that users can keep their CVs up to date with minimal effort.

Food Delievery App-VueJS | Kashtech Soltutions | github.com/hidayat11111/DelightPass | January 2023 - February 2023

- Implemented login, signup, and OTP (One-Time Password) verification using a phone number with Firebase for secure user authentication.
- Utilized Vuetify to create an appealing and user-friendly UI, focusing on a UI-centric approach to minimize the backend complexity.
- Employed a minimal backend approach to reduce the complexity of the application, allowing more emphasis on the user interface and user experience.
- Implemented authentication persistence using Firebase to ensure that users remain authenticated across sessions, enhancing the user experience and convenience.

EDUCATION

Bachelor of Computer Science and Engineering | Islamic University of Science and Tecgnology

Pulwama, Awantipora, Jammu & Kashmir | 2020-2024

SKILLS

HTML, CSS, Javascript, BootStrap, ReactJS, VueJS, Firebase, MongoDB, Framer-Motion, Parallex-Library, communication-Urdu(writing, reading, listening, vocabulary), Urdu Language Proficiency, Curriculum Development, Lesson Planning, English Proficiency, Advanced Vocabulary, Content Writing
